

It has been requested by numerous homeowners that we remind all homeowners of the following Colington Harbour Association Covenant:

ARTICLE III

SECTION 4

(E) Every pier, dock and swim platform must include a "water exit" ladder. Exterior pilings must be marked with a red or yellow reflector of no less than 2-1/2 inches in diameter at least twenty four (24) inches above the high water line. Davits for small boats are permitted, but boat slips and ramps that cut through a bulkhead are not.

This is the responsibility of the property owner.

If any homeowner needs to purchase a dock ladder, Bill's Marine is offering them to any Colington Harbour resident, at his cost. Feel free to stop by Bill's Marine, 1648 Colington Road, or call them at: 252-982-6595 for details.
