

BOD Impeachment Statement (Petition to Remove Two Board Members)

The Board of Directors has convened an impeachment committee to investigate the allegations against two board members, following a majority vote. This step has been taken to ensure the integrity of information amidst the spread of false claims on social media.

The impeachment committee discovered that several allegations in the impeachment brought by Denise Collins against Howard Snyder were false. These findings were presented to the Board of Directors. Consequently, the board voted to remove these false allegations from the impeachment proceedings. Denise Collins has been instructed to correct the impeachment allegations accordingly.

According to the bylaws, just cause is required to initiate an impeachment process.
